

FOR IMMEDIATE RELEASE

RE: CLOSING OF CROZER AND TAYLOR HOSPITALS

SUMMARY OF LCT COMMISSIONERS LETTER TO GOVERNOR

Time to call in the Pa National Guard.

- **THE PROBLEM:** Delaware County is facing two immediate health and safety crises.
 - **Friday closing of hospital emergency rooms and trauma centers and Shortage of Ambulance and EMS services to transport patients needing emergency medical care.**
- **THE DANGER:** No available emergency rooms and trauma centers and no way to get there immediately jeopardizes the health and safety of hundreds of thousands of Delaware County residents and travelers passing through the County.
- **THE QUESTION:** How can we tell the residents who elected us to represent them that we allowed a federal bankruptcy judge in Texas to decide these life and death issues?
- **THE SOLUTION:** There is a tried and tested solution ready to be implemented. The Governor can deploy the medical units of the Pennsylvania National Guard with special experience in trauma care to assist with operating these emergency rooms and trauma centers.
- **WHY THEM?** Look at the record of the medical units of the Pa National Guardsmen and women. They live and work to serve and protect. We need them. **NOW.**
- **TIME TO ACT:** It is a life and death situation. Let's roll up our sleeves and get to work. Together.

GOVERNOR, PLEASE SEND US THE PENNSYLVANIA NATIONAL GUARD MEDICAL UNITS.

RIGHT NOW.

**FROM THE LOWER CHICHESTER TOWNSHIP BOARD OF
COMMISSIONERS 4.30.25**
